

Field Force Command and Planning

FFC MGT-300

The Field Force Command and Planning training program is a three-day course that prepares the management-level responder to serve as a member of an incident management team during a civil action or disorder. The course provides instruction on incident management, incorporating pre-planning considerations, and other responsibilities of management-level responders during such an event. Students will develop a local Incident Action Plan for a civil action or disorder and learn how to implement response actions from the management level. The course culminates with a tabletop exercise in which students use knowledge and skills developed in the previous sessions to plan for and command resources at the incident site.

CONTINUING EDUCATION CREDITS

The Center for Domestic Preparedness is authorized by IACET to offer 2.4 CEUs for this program. Police Officer Standards and Training (POST), if approved by student's state: 24

TOPICS

- Apply lessons learned to current and future incidents involving civil actions or disorders.
- Complete an Incident Action Plan for a civil action/disorder event that requires a law enforcement response.
- Describe the equipment that could be used during a civil action/disorder to provide body and respiratory protection from chemicals.
- Develop comprehensive strategic and tactics plans for the organization when preparing for special events, civil disorders, and public assemblages.
- Describe how team tactics can be used to mitigate protester actions during a civil disorder event.
